

TESTIMONIAL

Academy of Life

8 May 2014

To Whom It May Concern

Academy of Life have been working in partnership with the Recovery College since its launch in 2013.

We have found their input is making a positive change to our students, by delivering courses which give learners a range of skills and attitudes to aid recovery, independence, life planning, confidence and motivation. I can report of hearing the positivity and enthusiasm when students come out of their sessions. In feedback forms 93% of students strongly agreed that the courses helped them to manage their own health and wellbeing.

This has been so successful, with a waiting list for their workshops, that we have arranged for them to double their attendance this term.

Therefore, I have great pleasure in accommodating the tutors and I have every reason to endorse Academy of Life and recommend it to other organisations.

Kate Hamill
Recovery College Manager
